

Operator Compliance Risk Score (OPT008)

Version 5.0

Operator Licence Number: PF1078571

Score Date: 21/01/2022

Positive Events Included: Y

Country of Origin: GB

Operator Name
Afsc Limited

Summary Information

Type of OCRS Score	Number of OCRS Events	Total Events Points	Total Prosecution Points	Event Points plus Prosecution Points	Calculated Base Score	Calculated OCRS Band	Final OCRS Band
Combined	49	187.5	0	187.5	3.83	Green	Green
Roadworthiness	47	187.5	0	187.5	3.99	Green	Green
Traffic	2	0	0	0	0.00	Green	Green

Prosecution Points Summary

Type of OCRS Score	Number of Operator Cases	Number of Driver Cases	Operator Case Points	Driver Case Points	Total Prosecution Points
Combined	0	0	0	0	0
Roadworthiness	0	0	0	0	0
Traffic	0	0	0	0	0

OCRS Band Threshold Values

Type of OCRS Score	Amber Threshold Value	Red Threshold Value
Combined	10	25
Roadworthiness	10	25
Traffic	5	30

Operator Licence Number: PF1078571
Positive Events Included: Y

Score Date: 21/01/2022
Country of Origin: GB

Negative Events

Type of OCRS Score	Source of Data	Date of Event	Location	VRM	Driver Name	Defect or Offence Id	Defect Description	Prohibition Category or Offence Band	OCRS Points Value	Weighting Value to be Applied	Weighted Points
Roadworthiness	Testing	07/10/2021	DRURY S VEHICLE SERVICES LTD	GDZ9097		67	Aim of Headlamps	4	25	1	25

Explanation of Report Contents

- 1). Operator Name - This is the operator name associated with this licence number.
- 2). Type of OCRS Score - Indicates if the summary line or event is relating to the Roadworthiness OCRS score category or the Traffic OCRS score category.
- 3). Number of OCRS Events - The total number of events recorded in OCRS for the calculation period, by score type.
- 4). Total Event Points - The total number of OCRS points allocated for offences or defects over the calculation period, by score type.
- 5). Total Prosecution Points - The total number of extra OCRS points allocated for operator and driver prosecution cases.
- 6). Event Points plus Prosecution Points - The final OCRS points total (defect/offence and prosecution points) over the calculation period, by score type.
- 7). OCRS Calculated Score - Calculated by dividing the number of OCRS points total by the number of OCRS events for each score type
- 8). Calculated OCRS Band - The base OCRS band, calculated by comparing the base score to the Amber and Red threshold bands for each score type.
- 9). Final OCRS Band - Indicates the final OCRS band, by score type, once any triggers have been taken into account. For Earned Recognition operators this will show as Blue
- 10). Number of Operator Cases - The number of successful prosecution cases relating to an operator during the calculation period.
- 11). Number of Driver Cases - The number of successful prosecution cases relating to a driver during the calculation period.
- 12). Operator Case Points - The number of extra OCRS points allocated for operator prosecution cases.
- 13). Driver Case Points - The number of extra OCRS points allocated for driver prosecution cases.
- 14). Total Prosecution Points - Calculated as a sum of the points per operator and points per driver, by score type.
- 15). Weighted Points - The final OCRS points to be applied (i.e. the OCRS points multiplied by the weighting value).
- 16). Amber Threshold Value - The Amber threshold band at the time that the score was calculated, by score type.
- 17). Red Threshold Value - The Red threshold band at the time that the score was calculated, by score type.
- 18). OCRS Points Value - The points allocated to the visit outcome, by score type.
- 19). Source of Data - The type of event that occurred (i.e. a roadside enforcement or traffic check, a test or a prosecution).

- 20).** Date of Event - The date that the event in question took place.
- 21).** Location - The location that the event took place (please note that for prosecutions this will be the location of the court).
- 22).** VRM - The Vehicle Registration Mark for the vehicle involved in the event.
- 23).** Driver Name - The name of the driver who was driving at the time of the event (please note that this is not always captured and will be blank for prosecutions).
- 24).** Defect or Offence ID - The defect or offence number relating to a defect or offence that was found during the event.
- 25).** Defect Description - A description of the defect or offence that was found.
- 26).** Prohibition Category or Offence Band - The severity band of the defect or offence that was found (defect category 1-4 or 1S-4S for S mark defects, offence band 0-5 for roadside or prosecution offences).
- 27).** OCRS Points Value - The points allocated to that defect or offence band within OCRS.
- 28).** Weighing Value to be Applied - The time weighting to be applied to those points based on the elapsed time since the defect or offence occurred.
- 29).** Weighed Points - The final OCRS points to be applied (i.e. the OCRS points multiplied by the weighting value).
- 30).** Type of Event - This indicates if the Event was positive (i.e. no defects/offences were recorded) or negative (offences/defects were recorded).
- 31).** Score Date - This shows the date that the OCRS score was calculated (please note that this will be the day before the score becomes active).
- 32).** Combined Band - This shows the Combined OCRS band at the time of the score calculation.
- 33).** Roadworthiness Band - This shows the Roadworthiness OCRS band at the time of the score calculation.
- 34).** Traffic Band - This shows the Traffic OCRS band at the time of the score calculation.
